

DATA BREACH PROTOCOL

1. Data breach and purpose of protocol

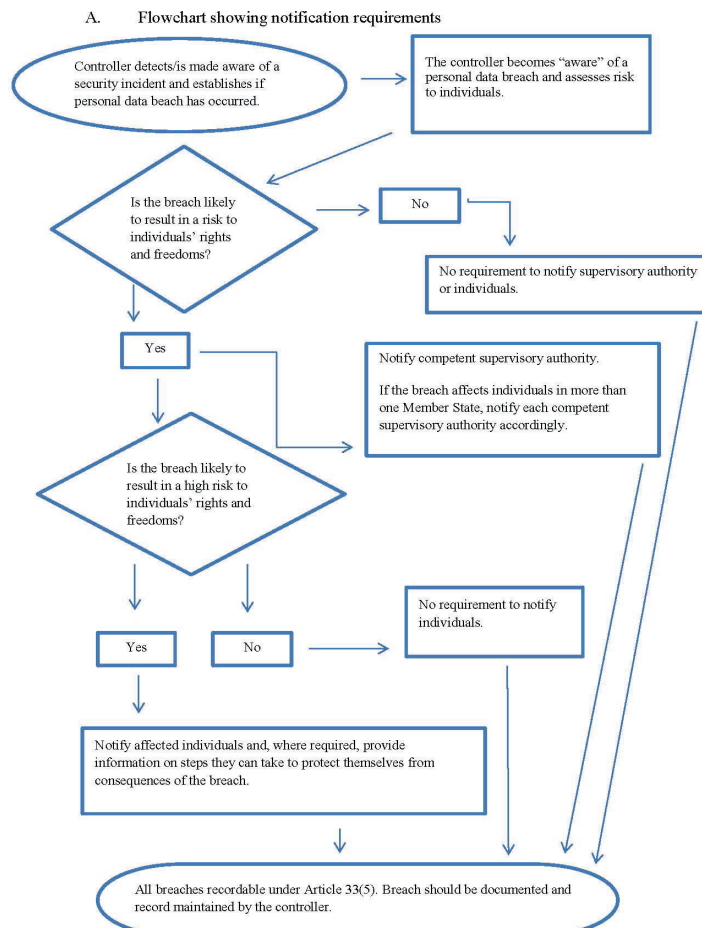

1.1. Donegal ETB has developed this personal data breach protocol. This is part of our strategic planning to ensure that Donegal ETB is prepared to respond in a personal data breach situation. The focus of any breach response plan will be on prompt action in order to protect individuals and their personal data. Donegal ETB is committed to:

- (a) Notifying the Data Protection Commission (DPC) of a personal data breach without undue delay and not later than **72 hours** after becoming aware of it (unless the personal data breach is unlikely to result in a risk to the rights and freedoms of natural persons).
- (b) Notifying affected data subjects without undue delay, unless the personal data breach is unlikely to result in a high risk to the rights and freedoms of natural persons.

1.2. This protocol will be:

- (a) circulated to all appropriate data processors. Data processors are required to alert Donegal ETB immediately if the processor becomes aware of a breach of the personal data it is processing on behalf of Donegal ETB
- (b) advised to staff at induction and at periodic staff meetings/ training.

1.3. The following flow-chart (taken from the Article 29 Working Party Guidelines on Personal data breach notification under Regulation 2016/679, Adopted on 3 October 2017) summarises the steps to be taken:

1.4. Definitions:

In this protocol, the following terms shall have the following meanings¹:

- 1.4.1. **“Aware”**: a data controller should be regarded as having become “aware” when that controller has a reasonable degree of certainty that a security incident has occurred that has led to personal data being compromised.
- 1.4.2. **“Damage”**: the personal data has been altered, corrupted, or is no longer complete.
- 1.4.3. **“Destruction”**: the data no longer exist or no longer exist in a form that is of any use to the controller.
- 1.4.4. **“Loss”**: the data may still exist but the controller has lost control or access to the data, or no longer has the data in its possession.
- 1.4.5. **“personal data breach”**: per Article 4(12) GDPR: “a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed”.
- 1.4.6. **“Temporary loss of data”**: an incident resulting in personal data being made unavailable for a period of time.
- 1.4.7. **“unauthorised or unlawful processing”** may include disclosure of personal data to (or access by) recipients who are not authorised to receive (or access) the data, or any other form of processing which violates the GDPR.

1.5. A data security breach can happen for a number of reasons, including:

- Human error.
- Loss or theft of paperwork, or any device containing data.
- Break-ins, burglary, mugging.
- Inappropriate access controls allowing unauthorised use/access.
- Equipment failure and inadequate system back-ups.
- A disaster such as flood or fire.
- Phishing or blagging (where information is obtained by deception or spoofing).
- Malicious attacks such as hacking or ransomware attack.

1.6. Personal data breaches can result in adverse effects on individuals which can result in physical, material, or non-material damage. This could include causing the data subject embarrassment, distress, or humiliation. Other adverse effect could include: *“loss of control over their personal data, limitation of their rights, discrimination, identity theft or fraud, financial loss, unauthorised reversal of pseudonymisation, damage to reputation, loss of confidentiality of personal data protected by professional secrecy, significant economic or social disadvantage²”* to affected individuals.

¹ Definitions taken from GDPR and WP250 (“Guidelines on Personal data breach notification under Regulation 2016/679).

² Page 8, WP250.

- 1.7. Personal data breaches can also be damaging to Donegal ETB as they can result in:
- Damage to the relationship of trust we have built with staff and students,
 - Loss of, deletion of, or damage to personal data which is essential to the administration of Donegal ETB,
 - Damage to the reputation of Donegal ETB
 - Administrative fines in accordance with the provisions of Data Protection legislation, enforcement action, and/or litigation.

2. Protocol

In case of a personal data breach, the Donegal ETB will follow the following protocol:

2.1. Identify that there is an issue an alert the relevant people

- 2.1.1. The DPO³ shall be notified as soon as possible.
- 2.1.2. The DPO shall notify the Chief Executive as soon as possible.

| |
|-----------------------------------|
| Emergency contact numbers: |
|-----------------------------------|

| |
|---|
| DPO – Sandra Doherty, Donegal ETB Administration Offices, Ard O'Donnell, Letterkenny, Co. Donegal . 074 91 61600. |
|---|

- 2.1.3. The DPO shall gather together a small team to assess the potential exposure/loss and undertake appropriate containment/mitigation/remediation measures. All staff and all data processors and/or joint data controllers are required to give all necessary assistance to the DPO and this team.
- 2.1.4. The DPO shall start a written chronology of events, recording all relevant matters, including:
- (a) Date and time of notification of the breach (using the format DD/MM/YYYY and am/pm as appropriate).
 - (b) If the notification relates to a potential breach, details of any preliminary investigation (if required) in order to establish whether or not a breach has in fact occurred.
 - (c) Details of who reported the matter.
 - (d) Details of what was known/suspected at that initial stage.
 - (e) Details of what system/data-set is involved.
 - (f) Assessment of risk to the rights and freedoms of natural persons.
 - (g) Immediate actions undertaken (investigation, containment, mitigation, recovery, etc).
 - (h) Details of the team gathered to assist.
 - (i) Details of the tasks allocated to each team member.
 - (j) At the same time as (g), notification to DPC within 72 hours after having become aware.
 - (k) Notification to the affected individuals (if required) without undue delay
- 2.1.5. Regardless of whether (or not) a decision is made to notify the DPC, all documentation relating to documenting a (potential/reported/suspected) personal

data breach including but not limited to the documentation required by Article 33(5) GDPR shall be stored on Donegal ETB Risks Register.

2.2. Containment, mitigation, and recovery

- 2.2.1. Donegal ETB will immediately seek to contain the matter (insofar as that is possible) and shall take all necessary steps to mitigate any further exposure of the personal data held.
- 2.2.2. Where the data breach relates to an IT system and/or electronic data, contact shall be immediately made with the data processor responsible for IT support in Donegal ETB. Their advices and assistance should be sought in relation to appropriate measures of containment, quarantine, preservation of data and logs etc.
- 2.2.3. Depending on the nature of the breach/threat to the personal data, this may involve:
 - (a) a quarantine of some or all PCs, networks etc.
 - (b) directing staff not to access PCs, networks, devices etc.
 - (c) suspending accounts,
 - (d) audit of the records held on backup server/s,
 - (e) ascertain the nature of what personal data may potentially have been exposed.
- 2.2.4. Consider a quarantine of manual records storage area/s and other areas as may be appropriate.
- 2.2.5. In appropriate cases, immediate consideration should be given to retaining an IT forensics specialist and obtaining legal advice.

2.3. Assess Risk

- 2.3.1. Donegal ETB shall undertake an assessment in relation to the risk: is the personal data breach likely to result in a risk to the rights and freedoms of natural persons?
- 2.3.2. Classification of that risk:
 - No risk?
 - Risk?
 - High risk?

If it is assessed that there is “no risk”, the reasons for that decision must be recorded.
- 2.3.3. When assessing risk, Donegal ETB shall have due regard to the sensitivity of the data and the category of the data subject (e.g. child, vulnerable person) in order to ascertain whether they may be placed at greater risk because of the breach.
- 2.3.4. Donegal ETB may not be required to notify the DPC and data subjects if the breach is unlikely to result in a risk to their rights and freedoms, e.g. the data were securely encrypted with state-of-the-art encryption, and the key was not compromised in any security breach.
- 2.3.5. Donegal ETB shall have regard to the recommendations made by the

European Union Agency for Network and Information Security (ENISA) for a methodology in assessing the severity of a breach⁴.

- 2.3.6. If a decision is taken not to notify the DPC and/or affected data subjects, the justifications for that decision will be documented and stored on Donegal ETB Risks Register.

2.4. Notification

- 2.4.1. **Reporting of incidents to the Data Protection Commissioner (“DPC”):** All incidents in which personal data and sensitive personal data has been put at risk shall be reported to the Data Protection Commission without undue delay and where feasible, not later than **72 hours** after having become aware of it unless it does not result in a risks to the rights and freedoms of data subjects.

DPC Contact details

Telephone: 0761 104 800
Lo Call Number: 1890 252 231
E-mail: info@dataprotection.ie
Address: Data Protection Commission
Canal House, Station Road, Portarlinton
R32 AP23
Co. Laois

- 2.4.2. At a minimum, the initial notification to the DPC shall contain the following:

- The nature of the personal data breach.
- The categories of data subjects (e.g. children, other vulnerable groups, people with disabilities, employees, customers).
- Approximate number of data subjects affected.
- Categories of personal data/records (e.g. health data, education records, social care information, financial details, bank account numbers, passport numbers etc).
- Approximate number of personal data records concerned.
- Name and contact details of the DPO (from where more information can be obtained).
- Description of the likely consequences of the personal data breach (e.g. identity theft, fraud, financial loss, threat to professional secrecy etc).
- Description of the measures undertaken (or proposed to be undertaken) by Donegal ETB to address the breach (including, where appropriate, measures to mitigate its possible adverse effects).
- **Important note:** where the exact details of any of the above are not yet known, this shall not delay a timely breach notification to the DPC. Further information can follow, when available: *“the information may be provided in phases without undue further delay⁵”*.

⁴ Available at www.enisa.europa.eu/publications/dbn-severity

⁵ Article 33(4) GDPR.

2.5.4 If the controller chooses to only notify the Data Protection Commission, it is recommended that the controller indicates, where appropriate, whether the breach involves establishments located in other Member States.

2.5.5 Purpose of DPC notification:

- (a) **Avoid an Administrative fine:** Failure to notify the Data Protection Commission as required under the Data Protection Act 2018 may result in an administrative fine.
- (b) **Advices:** so that Donegal ETB can obtain advices from the DPC, and to ensure that Donegal ETB's decisions about notifying (or deciding not to notify) affected data subjects can be justified.

2.5.6 Notifying affected data subjects

Following the risk-assessment conducted at 2.4.2, if the personal data breach is likely to result in a "high risk" to the rights and freedoms of natural persons, Donegal ETB shall:

- (a) Contact the individuals concerned (whether by phone/email etc) without undue delay.
- (b) Advise that a data breach has occurred.
- (c) Provide the data subjects with the detail outlined at 2.5.2 above.
- (d) Where appropriate, provide specific advices so that the data subjects can protect themselves from possible adverse consequences of the breach (such as re-setting passwords).

2.5.7 The communication to the data subject shall not be required if any of the following conditions are met:

- (a) Donegal ETB has implemented appropriate technical and organisational protection measures, and those measures were applied to the personal data affected by the personal data breach, in particular those that render the personal data unintelligible to any person who is not authorised to access it, such as encryption;
- (b) Donegal ETB has taken subsequent measures which ensure that the high risk to the rights and freedoms of data subjects is no longer likely to materialise;
- (c) it would involve disproportionate effort. In such a case, there shall instead be a public communication or similar measure whereby the data subjects are informed in an equally effective manner.

2.5.8 An Garda Síochána:

- (a) Where data has otherwise been accessed without authority, the matter shall be reported immediately to An Garda Síochána.
- (b) Depending on the nature of the personal data at risk and particularly where sensitive personal data may be at risk, further assistance should be sought from An Garda Síochána.
- (c) Where data has been "damaged" (as defined in the Criminal Justice Act 1991, e.g. as a result of hacking), the matter must be reported to An Garda Síochána. Failure to do so will constitute a criminal offence in itself ("withholding information") pursuant to section 19 Criminal Justice Act, 2011.

The penalties for withholding information include a fine of up to €5,000 or 12 months' imprisonment on summary conviction.

2.5.9 **Other bodies:** Where appropriate, contact may be made with other bodies such as the HSE, TUSLA, financial institutions, ETBI etc. (depending upon the nature of the data put at risk, e.g. if it contains sensitive information relating to children or vulnerable persons, such as child protection or safeguarding matters).

2.5.10 **Insurance company:** Donegal ETB shall notify the insurance company with which the organisation is insured and advise them that there has been a personal data security breach.

| |
|---------------------------|
| IPB Insurances 01 6395500 |
|---------------------------|

2.6 **ETB Legal Advisors, including as appropriate, the Legal Services Support Unit, Education and Training Boards' Ireland:** Donegal ETB may notify its legal advisors and advise them that there has been a personal data security breach for the purposes of obtaining legal advices and defending, compromising or otherwise settling litigation.

2.7 **Post-event:** After the initial response measures have been addressed, a full review should be undertaken in a timely manner. These should include the following:

2.6.1 Review of the breach record per Article 33(5) – document maintained by Donegal ETB in its Risk Register.

2.6.2 Details of learning outcomes, improvements, and safeguards should be identified.

2.6.3 Donegal ETB board shall receive an appropriate briefing from the DPO (and/or such other external experts as may be retained to assist), and a copy of any investigation reports and any correspondence exchanged with the DPC and/or affected data subjects.

2.6.4 Donegal ETB will give careful consideration to whether disciplinary procedures should be initiated, if relevant.

2.6.5 Where remedial actions are necessary, responsibility shall be allocated to individual(s): they shall be allocated responsibility for ensuring certain actions are completed within defined timeframes.

2.6.6 Staff should be apprised of any changes to this protocol and of upgraded security measures. Staff should receive refresher training where necessary.

Data Security Breach – Incident Report

CONFIDENTIAL

The GDPR defines a “personal data breach” in Article 4(12) as: “a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data transmitted, stored or otherwise processed”.

Breach ID:

When did the breach take place?

Where did the breach take place?

When was the breach discovered?

Who reported the breach?

Contact details of person who reported the breach?

Was the Data Protection Officer immediately contacted?

Yes ☐ No ☐

If YES, state by what means (e.g. phone, email etc.) and the time and date of the contact made?

| |
|--|
| |
|--|

If NO, was any other senior official e.g. CE, Director etc. contacted and if so, by what means (e.g. phone, email etc.) and the time and date of the contact made?

| |
|--|
| |
|--|

Were there any witnesses? If Yes, state Names & phone contact details

| |
|--|
| |
|--|

Please provide details of the breach:

| |
|--|
| What was the nature of the breach? |
| |
| What categories of data subjects (e.g. students, adult learners, parents/guardians; other vulnerable groups, employees, board members; contractors etc.) were affected and/or potentially affected by the breach? |
| |
| Approximate number of data subjects affected: |
| |

Categories of personal data/records (e.g. health data, education records, social care information, financial details, bank account numbers, passport numbers etc):

Approximate number of personal data records concerned:

Description of the likely consequences of the personal data breach (e.g. identity theft, fraud, financial loss, threat to professional secrecy etc.):

Description of the measures undertaken (or proposed to be undertaken) by Donegal ETB to address the breach (including, where appropriate, measures to mitigate its possible adverse effects):

Important note: where the exact details of any of the above are not yet known, this shall not delay a timely breach notification to the DPC. Further information can follow, when available: “*the information may be provided in phases without undue further delay*”⁶.

Was the breached data protected through passwords, encryption etc.? Supply details below.

⁶ Article 33(4) GDPR.

In your opinion, is the breach likely to be of a temporary nature? Can the personal information exposed be recovered?

Were any IT systems involved? (e.g. email, website, school admin system, VS Ware, Facility, apps). If so, please list them.

Is any additional material available e.g. error messages, screen shots, log files, CCTV footage?

Have you taken any action/steps so far to seek to stop/mitigate the risk either to the data subject/s who you think have been affected OR any other additional data subjects you consider may be affected? If YES, please describe below

Have you spoken to someone in ETB management team at administrative head office level e.g. CE, Director, Head of IT etc?

If so, please advise whom you contacted, and a brief outline of the advice given by him/her.

| |
|--|
| |
|--|

Have you made any contact with any external agencies e.g. Insurance Company, IT provider, Gardaí etc.? If YES, please describe below specifically whom you contacted and supply the name and contact details of same.

| |
|--|
| |
|--|

Any additional comments?

| |
|--|
| |
|--|

| | |
|---|--|
| Signed: | |
| Your position in Donegal ETB: | |
| Name of school, office, centre: | |
| Your contact number (ideally mobile number): | |
| Date: | |
| Time of completion: | |

Thank you for your efforts in completing this form. The effort undertaken in its completion will help Donegal ETB in its further investigation/analysis of the matter.

Please ensure this is forwarded directly to Donegal ETB Data Protection Officer

**Sandra Doherty, Data Protection Officer, Donegal ETB Administration Offices,
Ard O'Donnell, Letterkenny, Co. Donegal F92 DP98**

CONFIDENTIAL - THIS FORM HAS BEEN COMPLETED IN CONTEMPLATION OF LEGAL PROCEEDINGS

For your reference

Breaches can be categorised according to the following three well-known information security principles:

- (a) “Confidentiality breach” - where there is an unauthorised or accidental disclosure of, or access to, personal data.
- (b) “Integrity breach” - where there is an unauthorised or accidental alteration of personal data.
- (c) “Availability breach” - where there is an accidental or unauthorised loss of access¹⁵ to, or destruction of, personal data.

Depending on the circumstances, a breach can concern confidentiality, integrity and availability of personal data at the same time, as well as any combination of these. Whereas determining if there has been a breach of confidentiality or integrity is relatively clear, whether there has been an availability breach may be less obvious. A breach will always be regarded as an availability breach when there has been a permanent loss of, or destruction of, personal data.

Incident Response DOs and DON'Ts for IT systems

DO'S

- immediately isolate the affected system to prevent further intrusion, release of data, damage etc.
- use the telephone to communicate. Attacker may be capable of monitoring e-mail traffic
- contact Donegal ETB Data Protection Officer without delay – Rosaleen Harkin 074 9161600, e-mail dataprotection@donegaletb.ie
- preserve all pertinent logs, e.g. firewall, router and intrusion detection system.
- make back-up copies of damaged or altered files and keep these backups in a secure location.
- identify where the affected system resides within the network topology
- identify all systems and agencies that connect to the affected system
- identify the programs and processes that operate on the affected system(s), the impact of the disruption and the maximum allowable outage time.
- in the event the affected system is collected as evidence, make arrangements to provide for the continuity of services i.e. prepare redundant system and obtain data back-ups.

DON'Ts

- delete, move or alter files on the affected systems
- contact the suspected perpetrator
- conduct a forensic analysis.

Appendix 2 - Guidelines on Personal data breach notification under Regulation 2016/679

Examples of personal data breaches and who to notify

The following non-exhaustive examples will assist controllers in determining whether they need to notify in different personal data breach scenarios. These examples may also help to distinguish between risk and high risk to the rights and freedoms of individuals.

| Example | Notify the supervisory authority? | Notify the data subject? | Notes/recommendations |
|--|--|--|---|
| i. A controller stored a backup of an archive of personal data encrypted on a USB key. The key is stolen during a break-in. | No. | No. | As long as the data are encrypted with a state of the art algorithm, backups of the data exist the unique key is not compromised, and the data can be restored in good time, this may not be a reportable breach. However, if it is later compromised, notification is required. |
| ii. A controller maintains an online service. As a result of a cyber-attack on that service, personal data of individuals are exfiltrated. The controller has customers in a single Member State. | Yes, report to the supervisory authority if there are likely consequences to individuals. | Yes, report to individuals depending on the nature of the personal data affected and if the severity of the likely consequences to individuals is high. | |
| iii. A brief power outage lasting several minutes at a controller's call centre meaning customers are unable to call the controller and access their records. | No. | No. | This is not a notifiable breach, but still a recordable incident under Article 33(5). Appropriate records should be maintained by the controller. |
| iv. A controller suffers a ransomware attack which results in all data being encrypted. No back-ups are available and the data cannot be restored. On investigation, it becomes clear that the ransomware's only functionality | Yes, report to the supervisory authority, if there are likely consequences to individuals as this is a loss of availability. | Yes, report to individuals, depending on the nature of the personal data affected and the possible effect of the lack of availability of the data, as well as other likely consequences. | If there was a backup available and data could be restored in good time, this would not need to be reported to the supervisory authority or to individuals as there would have been no permanent loss of availability or confidentiality. However, if the supervisory authority became aware of the incident by other means, it may consider an investigation to assess compliance with the broader |

| | | | |
|---|--|---|--|
| was to encrypt the data, and that there was no other malware present in the system. | | | security requirements of Article 32. |
| <p>v. An individual phones a bank's call centre to report a data breach. The individual has received a monthly statement for someone else.</p> <p>The controller undertakes a short investigation (i.e. completed within 24 hours) and establishes with a reasonable confidence that a personal data breach has occurred and whether it has a systemic flaw that may mean other individuals are or might be affected.</p> | Yes. | Only the individuals affected are notified if there is high risk and it is clear that others were not affected. | If, after further investigation, it is identified that more individuals are affected, an update to the supervisory authority must be made and the controller takes the additional step of notifying other individuals if there is high risk to them. |
| vi. A controller operates an online marketplace and has customers in multiple Member States. The marketplace suffers a cyber-attack and usernames, passwords and purchase history are published online by the attacker. | Yes, report to lead supervisory authority if involves cross border processing. | Yes, as could lead to high risk. | <p>The controller should take action, e.g. by forcing password resets of the affected accounts, as well as other steps to mitigate the risk.</p> <p>The controller should also consider any other notification obligations, e.g. under the NIS Directive as a digital service provider.</p> |
| vii. A website hosting company acting as a data processor identifies an error in the code which controls user authorisation. The effect of the flaw means that any user can access the account details of any | <p>As the processor, the website hosting company must notify its affected clients (the controllers) without undue delay.</p> <p>Assuming that the website hosting company has conducted its own investigation the affected controllers</p> | If there is likely no high risk to the individuals they do not need to be notified. | <p>The website hosting company (processor) must consider any other notification obligations (e.g. under the NIS Directive as a digital service provider).</p> <p>If there is no evidence of this vulnerability being exploited with any of its controllers a notifiable breach may not have occurred but it is likely to be recordable or be a</p> |

| | | | |
|--|--|---|--|
| other user. | should be reasonably confident as to whether each has suffered a breach and therefore is likely to be considered as having “become aware” once they have been notified by the hosting company (the processor). The controller then must notify the supervisory authority. | | matter of non-compliance under Article 32. |
| viii. Medical records in a hospital are unavailable for the period of 30 hours due to a cyber-attack. | Yes, the hospital is obliged to notify as high-risk to patient’s well-being and privacy may occur. | Yes, report to the affected individuals. | |
| ix. Personal data of a large number of students are mistakenly sent to the wrong mailing list with 1000+ recipients. | Yes, report to supervisory authority. | Yes, report to individuals depending on the scope and type of personal data involved and the severity of possible consequences. | |
| x. A direct marketing e-mail is sent to recipients in the “to:” or “cc:” fields, thereby enabling each recipient to see the email address of other recipients. | Yes, notifying the supervisory authority may be obligatory if a large number of individuals are affected, if sensitive data are revealed (e.g. a mailing list of a psychotherapist) or if other factors present high risks (e.g. the mail contains the initial passwords). | Yes, report to individuals depending on the scope and type of personal data involved and the severity of possible consequences. | Notification may not be necessary if no sensitive data is revealed and if only a minor number of email addresses are revealed. |
